VISION Together families, youth, communities, and systems will support opportunities to improve the resilience and recovery for all individuals who experience behavioral health challenges. Using an equity lens, we strive to acknowledge and address the disparities within all marginalized communities.

MISSION Our mission is to create an inclusive space for our community to be heard. In sharing stories of lived experiences, we bring forward the needs, strengths, and opportunities of the current behavioral health system. By taking the challenges and addressing them collectively, we create system change and resolution.
